

The Green Hippocratic Oath

Process Cleaning for Healthy Schools® Edition

As a facility professional, I formally support the Green Hippocratic Oath:

First, Do No Harm to the Environment.

This involves a personal commitment to educate myself, teach others, lead with purpose, act with integrity, and - teaming with others - apply the reach, power, and responsibility of business to optimize indoor and outdoor environments for health.

My goal is to help make schools clean, healthful, and productive teaching and learning environments, through understanding and applying the tools and techniques of Process Cleaning for Healthy Schools.

This oath I make freely, and upon my honor:

Lined area for writing the oath.
